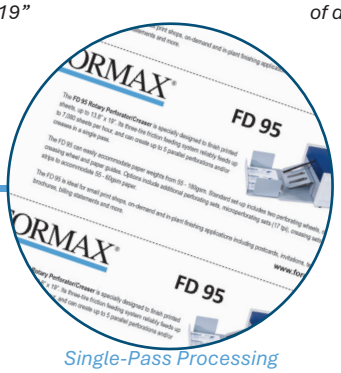
The **FD 95 Rotary Perforator/Creaser** is specially designed to finish printed sheets, up to 13.8” x 19”. Its **three-tire friction feeding system** reliably feeds **up to 7,080 sheets per hour**, and can create **up to 5 parallel perforations and/or creases in a single pass**. With **variable speed control** for different paper weights up to 180gsm, the FD 95 perforates and/or creases automatically, stacking the finished sheets neatly on the **telescoping outfeed table**. Standard set-up includes **two perforating wheels, one creasing wheel and paper guides**. Options include additional perforating sets, microperforating sets (17 tpi), creasing sets and guide strips to accommodate 55 - 60gsm paper. It’s ideal for small print shops, on-demand, and in-plant finishing applications including postcards, invitations, tear-offs, brochures, billing statements, and more.

Automatic Feeding
Telescoping infeed tray with adjustable side guides and three-tire feed system

Telescoping Outfeed
Outfeed extends to accommodate sheets up to 13.8” x 19”

Variable Speed Control
Adjustable to process a variety of different paper weights

Resettable LED Counter
Three-digit counter keeps an accurate tally of processed sheets



Single-Pass Processing
Perforates and creases in a single pass up to 5 per sheet

STANDARD FEATURES

- Simple set-up & operation
- Processes up to 7,080 sheets per hour
- Up to 5 parallel perforations and/or creases
- Interchangeable perforating/creasing wheel
- Variable speed control
- 3-digit resettable LED counter
- Reliable three-tire friction feeding
- Telescoping infeed and outfeed tables
- Fine-tuning knobs
- Accommodates paper up to 13.8” x 19”
- Processes paper weight from 55 - 180gsm
