Professional M SERIES USER GUIDE

Professional M SERIES USER GUIDE

Rotatrim
The world's finest rotary cutting equipment since 1966

Congratulations on purchasing your Rotatrim Professional!

The Professional 'M' Series is designed for use at home, in the classroom and in the workplace. Below are some hints and tips on how to keep your trimmer in the best possible condition. If treated correctly your trimmer should last many years.

HOW TO HANDLE YOUR ROTATRIM PROFESSIONAL TRIMMER

- ALWAYS hold your trimmer with two hands by the baseboard.
- NEVER hold your trimmer by its bars.

HOW TO USE YOUR TRIMMER

- Always place your Professional on a flat surface to prevent movement.
- Position the cutting head to the right hand side of the trimmer before inserting material.
- Insert your material to the left hand side of the trimmer, placing the work under the clear clampstrip (to ensure a square cut). Butt your work up to the side and position the cursor to the desired measurement.
- Slide the cutting head smoothly from right to left through your work, replacing the cutting head to the right hand side before removing your work to ensure a clean cut edge.
- Models: M12-M18 offer a two-way cut.
- Models: M20-M54 offer a one-way cut.
- NEVER exceed the recommended cut capacity for your trimmer - this may lead to overloading and could effect the warranty of your trimmer.

Please visit www.rotatrim.com for more details on how to use your trimmer

STORING YOUR TRIMMER

- When your trimmer is not being used we recommend it is stored flat with nothing placed on top of it.
- We do not recommend your trimmer is stored on its end for any long periods of time.

TRIMMER MAINTENANCE

From time to time your trimmer may need some preventative maintenance. We offer a full range of maintenance and service packs for all our trimmers.

For hints, tips and advice on maintaining your trimmer and information on anything from lubricating your trimmer to replacing the cutting wheels and clampstrips, please visit www.rotatrim.com: click on the 'Hints, Tips and News' at the foot of the page then click on the 'Youtube' panel and follow the links to our Youtube page.

ORDERING SPARE PARTS

Being the manufacturer, we hold a vast stock of spare parts for your trimmer (no matter what its age!). All parts are available to buy directly from our website.

For details of spare parts and item order codes, please see the opposite page.

We offer a Lifetime Labour-free Servicing Guarantee and a 5-year Manufacturing Warranty on all our Professional M Series Trimmers. Visit www.rotatrim.com for details.

** Note: When ordering these items add the model number after the order code (example: MT M24)
