

Staples in many different ways

Rapid 105 Electric

- Stapling performance:** Up to 50 sheets (80gsm)
- Magazine capacity:** 210 staples Rapid 66/6-8+
- Stapling depth:** Variable adjustment up to 100mm
- Weight:** 3,600g (fully equipped)
- Optional extras:** Pedal, clamp for table mounting, opto cables (40 or 70cm), multi base for max. 4 staplers
- Voltage/frequency:** 230V/50Hz, 240V/50Hz, 115V/60Hz
- Dimensions:** A: Length 250mm
B: Width 60mm (100mm with base)
C: Height 225mm (240mm with base)

Your benefits

- **Varied applications** – two or more staplers can be linked together for simultaneous stapling.
- **Flexible** – slim and compact design (including accessories) enables the staplers to be mounted in a variety of ways.
- **User-friendly** – air cushioning, 3-stage technology and spring suspension ensures a much lower noise level than ordinary magnetically actuated electric staplers.
- **Functional** – adjustable stapling depth and variable impact force.
- **Quality** – reliable operation, long service life (replaceable stapling head).
- **Safe** – stapling head guard and clearly visible, easy to access stapling zone.

The R105E is perfect for stapling small, slim packs. Automatic or pedal-operated stapling.

Can staple stacks of up to 50 sheets of 80gsm paper. The R105E rests firmly on the table and staples almost silently.

Two R105E staplers mounted in-line. Slim design enables staples to be placed close together.

The two-year guarantee covers material and production defects, provided the right staple is used, Rapid original staples.

R105 Electric

Variable impact force.

Slim design – only 100mm (60mm without base).

Safe – will not staple when stapling head guard is up.

Serial mounting via opto cables for greater production capacity.

Front loading – fast and convenient.

Plug-in pedal. (Optional extra).

Silent – solenoid plunger with electronically adjustable impact, damped return stroke and sound absorbing base.

Fast, simple switching of stapling head.

Double trigger sensors – individually adjustable. Stapling depth adjustable up to 100mm.

Reliable and versatile

RAPID HAS THE WIDEST AND BEST RANGE OF ELECTRIC STAPLERS ON THE MARKET. MANUFACTURED AND QUALITY CONTROLLED TO FULFIL THE NEEDS OF INDUSTRY AND BUSINESS, THEY ARE SPECIALLY DESIGNED TO MEET THE HUMAN REQUIREMENTS OF PROFESSIONAL USERS.

The R105E is a fast and almost silent stapler with the power, reliability and versatility demanded by industrial users. Two or more staplers can be linked for simultaneous multi-stapling. The slim design of the R105E enables it to be installed in a variety of configurations, giving added versatility.

Bench clamp enables stapler to be firmly fixed to work-table if required. (Optional extra).

The adjustable industrial multi base for mounting up to 4 staplers enables the staplers to be easily moved to another working area. (Optional extra).

The pedal is ideal for precision stapling in industrial applications. Simple plug-in connection. (Optional extra).

Simultaneous stapling action via linked opto cables (40 or 70cm). The staplers are sequence controlled, to avoid overloading the power supply. (Optional extra).

R106 Electric

Safe to use – will not staple when stapling head guard is up.

Front loading – fast and convenient.

Easy to switch stapling heads: Rapid 2EL/106 for flat and saddle stapling, Rapid 252 for loop stapling.

Adjustable stapling depth up to 100mm (flat stapling).

60mm with narrow work table 250mm with wide work table.

Variable impact force.

Serial mounting via optical cables for greater production capacity.

Silent – solenoid plunger with electronically adjustable impact, damped return stroke and feet.

Pedal – simply plug in.

Professional precision

THE R106E IS SIMILAR TO THE R105E, BUT INCLUDES A WORK TABLE FOR FLAT AND SADDLE STAPLING.

It can staple brochures or folders, with the work table folded down, as speedily and easily as it staples loose sheets or stacks of paper in the flat position. And it can be fitted with an insert stapler for loop staples (optional extra).

All Rapid products are subjected to comprehensive quality controls, from stringent component tests and exacting performance tests to very rigorous life-cycle tests. These quality control procedures are carried out both prior to manufacture (as part of all design and development work) and during manufacture (as continual product audits). We are, of course, certificated in accordance with the ISO 9001 quality management system and the ISO 14 000 environmental management system.

Narrow work table (60mm) with anvil. (Optional extra).

Special rail for saddle stapling with one or more R106E staplers. (Optional extra).

Rapid 252/106 stapling head for loop stapling. (Optional extra).

Simultaneous stapling action via linked optical cables (40 or 70cm). The staplers are sequence controlled, to avoid overloading the power supply. (Optional extra).

Three staplers in one

Rapid 106 Electric

- Stapling performance:** Flat and saddle stapling up to 50 sheets (80gsm), loop stapling up to 20 sheets (80gsm)
- Magazine capacity:** 210 staples Rapid 66/6-8+
- Stapling depth:** Variable adjustment up to 100mm
- Weight:** 4,200g
- Supplied with:** Wide work table, 250x150mm, 0.7kg. Pedal 0.7kg
- Optional extras:** Rapid 252 stapling head for loop stapling, rail for saddle stapling, narrow work table (60mm) with anvil, opto cables (40 and 70cm)
- Voltage/frequency:** 230V/50Hz, 240V/50Hz, 115V/60Hz
- Dimensions:** A: Length 250mm
B: Width 60mm (narrow work table) 250mm (wide work table)
C: Height 438mm

Your benefits

- **Varied applications – three staplers in one:** flat and saddle stapling (loop stapling as optional extra).
- **Flexible – two or more staplers can be linked for simultaneous stapling.**
- **Functional – adjustable stapling depth and variable impact force.**
- **Pedal supplied as standard equipment.**
- **Quality – reliable operation, long service life (replaceable stapling head).**
- **Safe to use – stapling head guard and clearly visible, easy to access stapling zone.**
- **User-friendly – front-loading. Automatic or pedal-controlled stapling.**

Flat stapling with the R106E. Automatic or pedal-controlled stapling to a depth of up to 100mm.

Loop stapling secures the sheets and ensures easy filing without making ugly punch holes. Brochures remain attractive, without any loss of text or pictures.

Saddle stapling with the R106E. Adjustable paper guide for precise stapling. Pedal-operating stapling.

The two-year guarantee covers material and production defects, provided the right staple is used, Rapid original staples.
