

ReelPRO V2™

Professional Take-up System

Increase productivity and streamline your workflow with ReelPRO V2™

ReelPRO V2 is an affordable, easy to install, easy to use take-up system which will allow you to take control of your workflow. At the heart of ReelPRO V2 is a proprietary, patent pending drive train. Developed by Supply55, it provides superior performance and reliability. ReelPRO V2 will immediately start saving you money through improved efficiency when printing longer jobs: banners, vehicle wraps, wallpaper, signs, etc.

ReelPRO V2™ is compatible with wide format printers and laminators

COMPATIBLE PRINTERS*

- Roland
- Hewlett-Packard
- Epson
- Mutoh
- Mimaki
- and many others!

COMPATIBLE LAMINATORS*

- Guardian
- Royal Sovereign
- Seal
- GBC
- CoolLam
- and many others!

BENEFITS

- Unattended printing
- Avoid dust and dirt on printed images
- Eliminate waste through improved workflow
- Stop kinking and scratching prints as they are moved from the printer to your work tables, or as they hit the floor
- When running in “manual mode” ReelPRO V2 automatically shuts down when the print job is complete
- ReelPRO V2 includes a sensor to monitor print head movement when running in “automatic mode” and shuts down when the print head stops
- Improve your profitability through increased efficiency
- Run roll-to-roll production with media rolls weighing up to 110 lbs
- ReelPRO V2 is a universal take-up system and works with all ink jet printers, laminators and other devices requiring media take-up

TECH SPECS
