

## Increase productivity with outputs up to 10K envelopes per hour\*

**Auto-synchronize all conveyor settings with 1-dial adjustment**

**High output - smaller footprint compared to others on the market**

The envPrinter™, CBENV1, is a versatile and ideal solution for high-volume print and direct mailing operations. The unit is perfect for producing short-run, full bleed/non-full bleed variable data jobs converted to PDF, fast, reliably, and profitably. With the new auto-synchronization feature, both the feeder and the exit conveyor speed automatically synchronize when the conveyor speed is increased. The envPrinter™ system provides everything needed to print and customize up to 10,000\* #10 envelopes per hour.

### Features

- Up to 10K envelopes/hour\*
- Single control auto-sync
- Thermal Inkjet Technology
- Pigment based Ink
- Water Safe Full-bleed printing
- PMS Color Matching Technology
- UL Certified

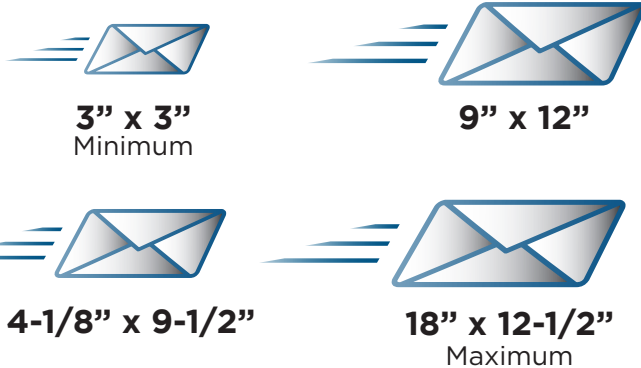

**1-800-944-4573**
