High-Security Optical Media Shredding

The FD 8712HS High Security Shredder is designed specifically for the destruction of Optical Media, and meets the requirements of NSA/CSS Specification 04-02 for Optical Media Destruction Devices.

The Optical Media cutting system shreds up to 1,068 CDs per hour into 1/16" x 5/32" particles. The FD 8712HS is the perfect solution for top secret and classified shredding of CD-R, CD-RW, CD-ROM and DVDs.

The FD 8712HS features an all-metal cabinet with casters, steel gearing, a lifetime guaranteed waste bin, and an easy-to-use control panel with digital load indicator. In addition, the energy-saving ECO Mode automatically switches into standby mode after 5 minutes of inactivity. The optional EvenFlow™ Automatic Internal Oiling System lubricates the cutting blades automatically during use, to keep the shredder in peak operating condition.
