Specifications

Textured Veneer finish is supplied in Mahogany or Oak. The wall thickness of each panel is 3/4" thick by 4" wide. This width allows a 3" depth between the doors and back panel, which allows you to place markers, erasers or anything else you may desire. The hinged doors are supplied with magnetic door latches and nice handles. This unit extends 5" from the wall when doors are closed. This unit comes with a hanger attached to the unit, and a mating hanger that gets mounted to the wall by the customer. An instruction sheet is provided for installation specifications. The double door units weigh approximately 104 pounds.
