

Durable, easy-to-use, affordable,
semi-automated dispenser.

Easy-to-use and designed for work environments where efficiency is paramount to project success, Glue Dots International's (GDI) EconoDot® semi-automated adhesive dispenser makes applying Glue Dots® Brand Adhesives fast, simple and economical.

With a thoughtfully executed design, the EconoDot enhances the operator's experience while increasing productivity. Features of the EconoDot include:

- Lightweight, easily moved
- Semi-automatic dispensing
- Minimal space requirements
- Fast, easy start-up and simple to use
- Minimal training requirements
- Virtually maintenance free
- Made of steel and aluminum, durable and easy to wipe down
- Holds rolls with up to 8,000 adhesive patterns

The EconoDot's photo-sensing eye is triggered when an operator presses and removes the substrate from the nose plate. This applies the adhesive to the substrate and the liner automatically advances to the next pattern. This allows the operator to efficiently apply the preformed adhesive, eliminating mess and waste.

In addition to efficiency-increasing features, the EconoDot can dispense an extensive selection of Glue Dots, including custom adhesives, allowing it to be used with applications on virtually any substrate, in any workplace.

Perfect for project-oriented environments like contract packaging facilities, sheltered workshops or fulfillment houses, the easy-to-use EconoDot semi-automated dispenser works for a variety of jobs in a wide range of industries. The EconoDot, when combined with Glue Dots Brand Adhesives, provides a popular alternative to double-sided tapes, liquid glues and hot melts. Glue Dots products are also a preferred solution when other adhesives prove to be messy, ineffective or difficult to use.

EconoDot® Applications

Packaging

Secure product orientation, attach samples prior to packaging/shrink wrapping and create multi-packs

Pharmaceutical

Secure medical product information sheets or outserts

Printing, Post-Press & Mail

Attach promotional items & gift cards, close brochures or use as an alternative to wafer seal

Dispenser Specifications

Weight:	10.0lb
Height:	10.5"
Length:	18.5"
Width:	7.0"
Materials:	Steel, Aluminum
Power:	100-240 VAC 50-60Hz; 0.5A; 24VDC

By following the instructions, located on the side of the EconoDot® dispenser, any user can quickly and efficiently load/reload the semi-automated dispenser with ease.

EconoDot® Compatible Standard Glue Dots Adhesives

Item #	Diam.	Tack Level	Bond	Profile
ED21-404	1/2"	Medium	Removable	Low
ED31-404	1/2"	High	Semi-Permanent	Low
ED41-404	1/2"	Super High	Permanent	Low
ED32-402	1/2"	High	Semi-Permanent	Medium
ED42-402	1/2"	Super High	Permanent	Medium
ED33-401	1/2"	High	Semi-Permanent	High
ED43-401	1/2"	Super High	Permanent	High

The EconoDot semi-automated adhesive dispenser has seven standard adhesive options, but is also compatible with custom adhesives, which are available upon request.

EconoDot adhesive rolls are also compatible with the manual Dispenser Box applicator and the fully-automated SD-900. This saves on inventory and increases use-occasions for companies that take advantage of these pieces of GDI application equipment.

The right adhesive solution for your application.

Established in 1997, Glue Dots International (GDI) forever altered the adhesive industry when it launched the unprecedented pressure-sensitive, preformed adhesives product line globally known today as Glue Dots®.

With the most pressure-sensitive adhesive pattern experience in the industry, GDI can help you find the right adhesive and application equipment solution to meet your specific needs.

Our experienced account managers and engineers are available to provide adhesive recommendations based upon your application. Sample adhesives may be supplied for testing.
