PRODUCT GUIDE

KEENCUT
THE WORLD'S FINEST CUTTING MACHINES

Integral interchangeable tools

Multi tool head

- All blades and glass cutting wheels are permanently mounted for instant use.
- Uses off the shelf blades - no costly specialist blades required.
- Unique ratchet system for incremental cutting of thicker materials.

Twin wheel cutter

- Cuts 3mm MDF in a single pass producing a clean edge.
- Noiseless, dust and debris free.
- Balance weight parks head at the top when not in use.

Cuts all materials down the same line

- No need to alter production stops for different materials.
- Simple operation.
- Reduces wastage.
- Reduces mistakes.

Consistent perfect cuts

Unique pressure sensitive clamp

- Powerful clamping holds tough materials precisely for a perfect cut.
- Touch-sensitive control clamps delicate or printed materials gently without damage.

Perfect 90° cutting

- Simple initial set up to 90° using squaring adjuster.
- Maintains permanent 90° accuracy over time.

Achieve the same cut every time

- Quick set production stops for repeated use.

Single piece squaring arm

- Robust, rigid structure for perfect alignment.
- Provides consistent accuracy.
- Reduces set up time.

OPTIONAL EXTRA

Free standing kit

Ideal for when wall space is limited or flexibility of machine placement is required. Bolts directly to the back of the machine to produce a rigid and stable free-standing unit.
