*May vary due to variations in paper and power supply

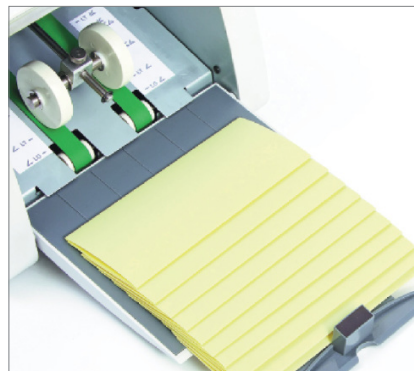

The 98M is the new and improved model of the 93M. New features include Test Mode, a lock plate to separate the rollers to prevent flat spots, and there's no longer a need to reverse the second folding plate when performing a double fold job. Compact size (feed table and exit tray fold in for storage). Simple, push-button operation. Digital control panel. Programmable counter with batch and total functions. Color-coded fold plate graphics for quick and easy set-up. Powered exit conveyor. Exit tray extension for neat stacking of folded sheets. Automatic stop when last sheet is folded.

Features

COLOR-CODED SET-UP

Color-coded fold plate graphics ensure accurate placement of paper stops.

POWERED EXIT CONVEYOR

The powered exit conveyor and exit tray extension allow neat stacking of folded sheets.
