W-SERIES DIRECT HEAT TABLE TOP SEALER

Model: WNS-200D

Ideal for Coffee Gusseted Bags

- Consistent Seals Each Time
- Easy to Operate
- Strong 10mm Seal Width w/ Meshed Design
- Protector Bars Around Sealing Jaws
- Seals Variety of Thermoplastic Materials

More Details:

WNS-200D is a table top direct heat sealer that can seal many different types of thermoplastic materials including: aluminum foil, Kraft paper, cellophane, polypropylene, poly-nylon and other thicker materials. Please note: direct heat sealers cannot seal polyethylene.

Material up to 8" wide and 20mil total thickness can be sealed. Sealer is equipped with a digital control panel to guarantee consistent and reliable sealing. Sealing bars are enclosed with heat resistant plastic bars for safer operation.

Features:

WNS-200D	
Type	Direct Heat / Constant Heat
Voltage	120V
Power	250W
Seal Width	10mm
Seal Type	Meshed
Seal Temp	100-300°C / 212-572°F
Warm-up Time	5-10 minutes
Machine Dimensions	8" x 10" x 9"
Weight	18lbs

To operate, set the temperature and seal time. (Note: Temperature is in Celsius, not Fahrenheit). Always start with the minimal setting and slowly increase temperature as needed. Insert material in between the seal bars and lightly bring the seal bars to meet using the knob.

The WNS-200D sleek and compact design makes the unit suitable for manufacturing facilities with small work spaces.
