Charge and sync
up to eight devices
right on your desktop!

LED indicators
let you know at a glance
how long the devices have
been charging

iTeach® Desktop Sync & Charger

- Easily charge and/or sync up to eight USB tablet or phone devices right on your desktop with the compact and attractive iTeach® Desktop Sync & Charger.
- Controlled power management knows which devices need more power, helping to extend battery life and saving energy. Includes four charge indicators and on/off power switch.
- Charge or sync up to eight devices with one power cord to the wall. Unit works with most tablets and other devices that are charged via USB.
- USB port in the back of unit is used to sync to a master device, or daisy chain several together using a USB hub.
- Optional syncing mode can be accessed via an iTunes or Windows 7 host computer using the sync USB cable provided.
- Apple devices can be setup and configured using the Apple Configurator available directly from Apple and synced using iTunes. Non-Apple devices will appear as USB drives and can sync via dragging and dropping. Contact your tablet manufacturer to understand the best method of transferring files for your specific device.
- TAA compliant.
- Modified devices, firmware, and custom syncing software may cause compatibility issues with the sync and/or charge capabilities of carts. Please contact us for information regarding the compatibility details of your particular configuration.
