

Features

- 10 bins (available only as a single-tower configuration)
- Each bin features 3 feeding rollers and an adjustable separator to provide reliable and accurate feeding
- User-friendly control panel, identical to its predecessors the DFC-120 and DFC-80, includes Block Mode for on-the-run loading, interleaving for separation of batched sets, and total or remaining counter to monitor job progress
- Up to 70 sets/min (A4 short edge feeding) when feeding into stacker tray
- Up to 40 sets/min when configured with the DBM-120/T Bookletmaker/Trimmer or DFC-S Stapler
- Bi-directional feeder feeds to the right into the paper receiving table for straight or offset stacking, or to the left into the DBM-120/120T Bookletmaker/Trimmer or DFC-S Stapler

Summary

The DFC-100 friction-feed collator is an entry level collator utilizing three feed rollers and independently adjustable separators in each bin to provide reliable and accurate feeding. With a maximum processing speed up to 4,200 sets per hour, the DFC-100 can feed in both directions, either to the right for stacking or to the left into a downstream bookletmaker or stapler. The DFC-100 is available in single-tower configuration only (10 bins) and can be connected in line with the DBM-120 Bookletmaker and DBM-120T Trimmer or DFC-S Stapler.

Specifications

Number of Bins	10
Bin Capacity	Up to 1.10" (350 sheets of 64 gsm)
Paper Size	5.83" x 8.27" - 12.60" x 17.72"
Paper Weight	52.3 - 128 gsm
Speed	Up to 4,200 sets/hour
Power	AC 100-240 V 50/60 Hz
Power Consumption	1.2 - 0.8 120W
Dimensions (WxDxH)	33" x 25" x 40"
Weight	143 lbs.
