BASIC PRODUCT MAINTENANCE AND TROUBLESHOOTING

OILING SHREDDER

All cross-cut shredders require oil for peak performance. If not oiled, a machine may experience diminished sheet capacity, intrusive noise when shredding and could ultimately stop running. To avoid these problems, we recommend you oil your shredder each time you empty your waste bin.

FOLLOW OILING PROCEDURE BELOW AND REPEAT TWICE

Set to Off

*Apply oil across entry

Press and hold Reverse (◀◀) 2-3 seconds

*Only use a non-aerosol vegetable oil in long nozzle container such as Fellowes 35250
