CAPABILITIES

Will shred: Paper only

Will not shred: Adhesive labels, continuous form paper, transparencies, newspaper, junk mail, credit cards, CD/DVDs, staples, paper clips, cardboard, laminates, file folders, X-rays or plastic other than noted above

Paper shred size:

High Security Micro-Cut....(Din 6) 1/32 in. x 3/16 in. (0.8mm x 5.0mm)

Maximum:

Sheets per pass6*
Paper entry width.......10-1/4 in. (260mm)

- *8.5 in. x 11 in., 20lb., (75g) paper at 120V, 60 Hz, 8 Amps; heavier paper, humidity or other than rated voltage may reduce capacity. Recommended maximum daily usage rates: 3,000 sheets per day. 6 sheets per pass.
- * In order to perform at capacity, shredder must be plugged into a dedicated 15Amp, 120V outlet and auto oil system must be engaged.

ADVANCED PRODUCT FEATURES

Auto Oil™

Lubricates the cutters automatically to enhance performance and extend shredder life

Sleep Mode

Energy saving feature shuts down the shredder after 1 hour of inactivity

AWARNING: IMPORTANT SAFETY INSTRUCTIONS — Read Before Using!

- Keep away from children and pets. Keep hands away from paper entry. Always set to off or unplug when not in use.
- Keep foreign objects gloves, jewelry, clothing, hair, etc. — away from shredder openings. If object enters top opening, switch to Reverse (R) to back out object.

 Never use aerosol products, petroleum based lubricants or other flammable products on or near shredder. Do not use canned air on shredder.

- Do not use if damaged or defective. Do not disassemble shredder. Do not place near or over heat source or water.
- This shredder has a Disconnect Power Switch (C) in the door. The door must be closed to operate shredder. In case of emergency, open door. This action will stop shredder immediately.
- Avoid touching exposed cutting blades under shredder head.
- Shredder must be plugged into a properly grounded wall outlet or socket of the voltage and amperage designated on the label. The grounded outlet or socket must be installed near the equipment and easily accessible. Energy converters, transformers, or extension cords should not be used with this product.
- Do not operate the machine without the safety flap closed (A).

BASIC SET-UP

BASIC SHREDDING OPERATION

SHREDDER SET-UP

Open the door

Place cutter head into top of cabinet, use 2 people

Ensure access to a dedicated 15Amp, 120V outlet

Make sure safety flap is securely in place

PAPER

Plug in and make Press (©) ON to activate sure door is closed

Feed paper straight into paper entry and release

When finished shredding set to (c) OFF

Do nothing and shredder will go automatically to sleep mode after 1 hour

OILING SET-UP

Remove oil bottle holder from cabinet

Hook oil bottle holder into side of cabinet

Remove lid from oil bottle

bottle and screw stopper on

Put oil tube into oil Place oil bottle into oil holder on side if cabinet

Close door. Plug into socket-outlet

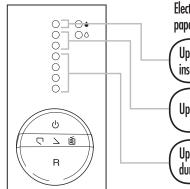

Oil pump starts automatically on first use. To stop Oil Indicator (△) from blinking red, press ON (4) after 15 seconds

After changing oil bottle, press Reverse (R) until Oil Indicator (a) no longer blinks red

SHEET CAPACITY GAUGE

Eliminates frustrating jams by preventing overloads.

Electronically measures paper thickness to prevent paper jams:

Up to RED: Too many sheets have been inserted. Automatic reverse of paper.

Up to YELLOW: Maximum sheet capacity.

Up to GREEN: Normal sheet capacity during shredding process.

SLEEP MODE

WHEN IN SLEEP MODE

To get out of sleep or press ON (🖒)

insert paper

TROUBLESHOOTING and PREVENTIVE MAINTENANCE

- Empty wastebasket when bin full indicator lights up.
- Shredder won't run if the door is open, or bin needs to be emptied.
- Maintenance is an important part of protecting your investment. Don't forget to purchase our oil (3505801) and shredder bags (3604101). Go to Support Section at www.fellowes.com or see back page of manual for useful telephone numbers.

PAPER JAM

Set to Off (4) and empty bin. Replace bin and follow the below procedures.

Stops automatically if too much paper is inserted. Automatic reverse if paper jams

Gently pull uncut paper from paper entry. Machine runs for a short time in reverse. Repeat if necessary

Shred One Sheet

CLEANING AUTO-START INFARED SENSORS

Paper detection sensors are designed for maintenance free operation. However, on rare occasions the sensors may become blocked by paper dust causing the motor to run even if there is no paper present (Note: two paper detection sensors are located in the center of the paper entry).

TO CLEAN THE SENSORS

Turn off and unplug shredder

Locate Auto-start infared sensor

Use thin, long-handled brush to clean sensors. Make sure brush is clean and dry

Clean any contamination from the paper sensors

POWERSHRED HS-660 THE WORLD'S **TOUGHEST** SHREDDERS™

WARRANTY

Limited Warranty: Fellowes, Inc. ("Fellowes") warrants the parts of the machine to be free of defects in material and workmanship and provides service and support for 1 year from the date of purchase by the original consumer. Fellowes warrants the cutting blades of the machine to be free from defects in material and workmanship for 1 year from the date of purchase by the original consumer. If any part is found to be defective during the warranty period, your sole and exclusive remedy will be repair or replacement, at Fellowes' option and expense, of the defective part. This warranty does not apply in cases of abuse, mishandling, or unauthorized repair. The user is responsible for any additional costs incurred by Fellowes in servicing the paper shredder
