For all the 230V units, substitute the above power cords in item 8 of the first page. All the 230V units use caution label 6009000, item 16 of the first page. However, some of the 230V units use addition labels as specified above.

**NOTE:** The labels were not part of the kits. Therefore, the only real change to the 230V units from the 115V units are the power cords only.
