for Orders or Inquiries

Step 2: Gather parts H, M, and L. Install the lower shelf with the counter sunk screws and the hex wrench.

Step 3: Gather parts D, E, F, N, P, L.

Step 3A: Install D, E into the base frame.

Step 3B: Install F using N, P and L

Step 4: Gather parts H, M, and L. Place the top upside down on a protected surface. With assistance, flip the desk over and secure the desk to the top with the 16 wood screws.

Step 5: With assistance, rotated the desk back over

Step 6: Determine what height you need. Note that you can always adjust later to fit your needs. Note the lowest and tallest setting 26" through 42". There are adjustment points at 1" increments to adjust your height. When you reach your desired height, set screws lock it in position.

Lowest Position

Tallest Position

Step 7: Gather parts K and L. With assistance, pull the desk to the desired height, and secure in place with the set screws and set screw hex wrench.
