Heat-Activated Films

Octiva thermal films contain an increased polyester content that provides excellent protection, as well as high clarity and rigidity for overlamination or encapsulation of digital color images.

Octiva Gloss

Available in 1.7, 3, 5, & 10-mil

High gloss polyester films are perfect for store displays or promotional signage where indirect lighting will prevail.

Octiva Matte Hardcoat

Available in 5-mil

Hard coated matte polyester substrate with scuff resistant properties. Used where there is a high degree of wear. Matte finish diminishes reflection from direct lighting applications.

Octiva Lustre

Available in 3-mil

A semi-gloss (satin finish) film using a filled polyester substrate. Applications include point-of-purchase displays, indoor signage or brightly lit areas. Octiva Lustre is the most color-correct film on the market.

Octiva Write Erase

Available in 1.7-mil

A gloss film designed to be written on with dry erase markers and wiped clean. Applications include teaching aids, presentations, schedules, meetings, litigation graphics, etc.

Octiva Matte

Available in 3-mil

A matte finish offers a crystal-sharp image with virtually no reflection when used on products displayed in direct light. Excellent for trade show displays, window signs, and more.

Octiva Films

Octiva Film	Mil Thick	Film/Adhesive Ratio	Recommended Speed	Core Size
Gloss	1.7	.5/1.2	3-6 fpm	3"
	3	.6/2.4	3-6 fpm	3"
	5	3/2	3-6 fpm	3"
	10	7/3	3-6 fpm	3"
Lustre	3	.5/2.5	3-6 fpm	3"
Matte	3	.5/2.5	3-6 fpm	3"
Matte Hardcoat	5	3/2	3-6 fpm	3"
Write Erase	1.7	.5/1.2	3-6 fpm	3"

Description

Polyester substrate coated with a copolymer adhesive.

Characteristics

High clarity and rigidity of digital color imaging.

Temperature

220°-250°F
