Product Description

Set up your display to attract the right kind of attention with this heavy duty display easel. Two signs or one very large display are held in place with sign holders, plus a display top clamp and bottom support ledge are built-in for additional securing options. The aluminum construction stands up to frequent indoor and outdoor use.

Features

- Display easel is height adjustable. Easily set it to stand from 38" – 66" tall, great for trade shows.
- Holds up to 45 lbs. in display weight to support heavier signage materials
- Two sets of sign holders allow you to display two signs at once, one on top of the other. Can also support a single very large display using just the bottom set of sign holders.
- Integrated flipchart pad holder makes this easel useful for in-office meetings and presentations
- Flipchart holder can be clipped to the back leg when not in use
- Top clamp keeps large displays from toppling over. The clamp retracts into the easel when not in use so as not to detract from your signage.
- Easel is designed for indoor or outdoor use. Integrated spikes hold the display easel in place in grass or dirt.
- Aluminum construction of this display easel is very durable, and the tripod design is well-known for its stability. Indexing on the front two legs ensures perfect leveling on virtually any surface.
- The easel legs have a unique, channeled design. Identical to that of a camera tripod, the easel is easier to set up and collapse than ever before. Great for portability.
- 1 year warranty. Silver in color.
