EXPERIENCE THE DIFFERENCE
air purifiers reimagined

Senses pollutants

Clean air should be everywhere, not just near the purifier. Placed across the room, SensorPod™ measures pollutants away from the purifier, then communicates with the purifier to ensure the full room benefits from purified air.

Note: Features differ from model to model. Refer to chart for details.

Responds to your air

SensorPod™ air quality readings are displayed on the illuminated disc. Know when your air is good, moderate or poor and have the peace of mind that your purifier responds accordingly.

EPA AIR QUALITY INDEX
